### Vintage

After somewhat classic" Spring conditions, the vine growth was stable and constant, supported by atypical rainfall for this southern region. Thanks to a strong vigilance the grapes were harvested healthy and with excellent ripeness. Syrah have been harvested last, at the end of september, after the late-ripening grape varieties, to reach perfect maturity.

## Grape varieties

75% Syrah, 25% Grenache

#### Terroir

Villafranchian quartz pebbles deposited by the Rhône river and red clay

# Winemaking

5-day skin soak prior to fermentation. According to tasting evaluation, an alternance of punching down, pumping over and rack-and-return methods were applied. Moderate extraction, especially towards the end of the alcoholic fermentation, to favour silky tannins. The free-run and press wine

were blended before being put into barrel and tank. 40% was placed in 3-year old oak barrels for a period of 8 months. Bottled the 8th July 2015. 6.600 bottles produced.
